American Letter to UTILITY

REF: E62A-7781

In checking CGS files for traces on John DAHL, whose name appears in the return address of referenced letter to UTILITY, we found one trace on Subject in E62A-7781. The letter dispatch refers to E62A-1292, which apparently forwarded a request from Hitler von LEX for information on John DAHL; von LEX, it appears, had also been approached by Subject, ostensibly for an autograph. Our trace states that Subject had been checked out and found to have been merely a bona fide autograph hunter, since 1949, with no subversive intent, and that he had probably seen von LEX's name mentioned in some publication and subsequently contacted him for an autograph.
